Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, January 27, 2013 – 10:00 a.m.

This long journey in the 'brighter world', as you call it, will have left a wealth of writings – more than any of our readers will be able to assimilate. What matters is that they exist and meet the expectations of many of our brothers and sisters, which denotes that each one has a potential that can lead them very far onto the shores of the sacred. We can only rejoice in such a situation. Our continual action bears fruit for the benefit of the whole Mission. All that is being accomplished here below is productive on other planes of consciousness; this yields the best results.

The aura of this beautiful Sahaj Marg Mission is growing; it ennobles brows that are pure and committed with loyalty and fervour in this evolutionary cycle that is specific to a pivotal period on this Earth. Spirituality, one that produces a real elevation of beings, is decisive here; preparing what the future world will become is not a trivial matter. It is up to each and every one to be convinced of this and to act for their own evolution, in full consciousness and loyalty towards the Master and towards themselves, while going well beyond what is humanly visible. 'Doesn't everything have its raison d'être!' Our way is involved in this divine journey planned, it seems, from time immemorial.

Our abhyasis should consider their approach as an act that is both responsible and very beneficial for themselves and for all. Spiritual work, as we propose it, contributes to the development of a better world. It is time that humans were aware of the current

situation. Looking around themselves carefully, they will see that they should change their behaviours and finally act for the good of each one and of humanity as a whole.

This world originates from there, that is to say, from the divine will. What have humans done with it? Have they not circumvented the laws and let undesirable tendencies run wild! We cannot change any of this; we can only wish the best to all our brothers and sisters involved in a liberating process that can generate the best for human evolution.

We are working towards it tirelessly and helping our abhyasis to that end.

May all be enlightened and strengthened in the face of adversity.

Babuji
