Whispers from The Brighter World

Thursday, January 31, 2013 — 11:00 a.m.

Grand-Master's birth anniversary is approaching. Such days are to be considered in a very special manner; a subtle energy spreads for the occasion and beings who are refined and sensitive to those blessed moments can take full advantage of this. So must it always be in the future; they will become more and more the sacred reference, the milestones of our Mission. Large gatherings unite our abhyasis; they create a very subtle aura that greatly benefits all. Venerating the Masters is one of the key points in our Mission. Are they not conveyors of the Divine, and the representation on Earth of a higher power!

"May all our abhyasis fully realise it and enjoy a very special vibration on these days. Some of them have experienced special situations and experiences during these big gatherings. Regardless of what manifests itself and is sensed at the human level, a significant vibratory charge runs across the whole Mission.

"May those great moments remain over time an important spiritual necessity for all, fostering in them an adequate openness of heart capable of conveying their innermost feelings. May our blessings on these birthday celebration days favourably touch the hearts of all our brothers and sisters who are sensitive to their very special impact. We wish for each of them the desired revelation — one that is beneficial in every respect."
