Whispers from The Brighter World

Thursday, January 31, 2013 – 11:00 a.m.

The Grand-Master's birth anniversary is approaching. Such days are to be considered in a very special manner; a subtle energy unfolds for the occasion, and beings who are refined and sensitive to these blessed moments can fully benefit from this. So must it always be in the future. More and more, these days will become a sacred reference, the milestones of our Mission. The large gatherings unite our abhyasis, creating a very subtle aura that greatly benefits all. Venerating the Masters is one of the essential points in our Mission. Are the Masters not conduits of the Divine, the representation on Earth of a higher power!

May all our abhyasis fully realise it and benefit from a very special vibration during these days. Some of them have undergone particular conditions and experiences during these large gatherings. Regardless of what manifests and is perceived at the human level, a significant vibratory charge occurs throughout the Mission.

Over the course of time, may these great moments remain an important spiritual necessity for all, fostering in them a suitable openness of heart that is capable of expressing their innermost feelings. May our blessings on these birth anniversary celebration days favourably touch the hearts of all our brothers and sisters who are

sensitive to their very special impact. We wish for each of them the desired revelation, which is beneficial in every respect.
