Whispers from The Brighter World

Tuesday, February 5, 2013 – 10:00 a.m.

These birth anniversaries of the Masters in our Mission are sacred – we are saying it again. Our abhyasis must truly become aware of this and give priority to these moments of very special interiorisation. We are stressing this here in particular for good reason; many of our aspirants are not truly aware of the impact that these moments can generate. Blessed are those who give these days a special place; they benefit from particular graces each year. We emphasise this fact for the good of all.

The Mission is expanding around the world, and its impact will continue to grow over time. Fervent hearts are advancing in proportion to their commitment. Nevertheless, we make sure that all benefit from our utmost attention, enabling their satisfactory progress. Advancing spiritually saves valuable time in the cycle of human evolution, which has gone through many transformations, preparing the way for an unprecedented mutation in the future. Everything happens in its own time – very slowly on this planet, but such is its pace and we can only abide by it.

Here below, humans are preparing for another life, a very different one in many respects – one in which they will be able to re-examine and challenge themselves, thus fostering a more refined approach to the Divine.

May all our brothers and sisters advance ever further in their awareness of the realities of an Earthly existence. We are doing our best to help them in this, and they are under our constant blessings.
