Whispers from The Brighter World

Sunday, February 10, 2013 – 10:00 a.m.

Complete surrender fosters our action – thus is the best achieved. A surrendered heart becomes very receptive, thereby creating a vibratory chain that runs through the world of humans. Nobody is forgotten, alone, or isolated and far from everything; nothing stops the effects of grace when the spiritual Master is called. This is how it is – we repeat it once again. But it is not easy for everyone to understand such comments; they are beyond the comprehension of many human beings.

Our brothers and sisters who are faithful and truly committed in their approach, not only advance, but also manage to grasp what previously seemed impossible to them. In this, the Sahaj Marg Mission stands out; it offers real results over the years – tangible results, shall we say. Our aspirants are thus privileged at the dawn of an unprecedented transformation of the world. They receive the appropriate preparation; this is not negligible, since these vibratory effects benefit all sensitive beings.

People need time to understand the importance of a spiritual approach; many do not truly realise it. Nothing can be forced in this area. Certain facts will sometimes change a person's vision, so that he or she tries to understand and to feel within themselves this lack that challenges them.

The divine plans are a constant source of interrogation for humans; very often, on their Earthly journey, these plans can lead them where they never thought of going. "Humans plan their lives and what does God do? He laughs." There lies the great mystery

of life: it can hold surprises in store continuously, and this right until the end. This is how it is.
