Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, February 24, 2013 – 10:00 a.m.

Forget the daily worries, that which makes up everyday life with its share of disappointments, but also joys at all levels. The true refuge is within your reach; it exists within you and you honour it every day in this sacred ritual. All these writings are spread across the world and touch hearts that are sensitive to their content.

This introduction, one could say, leads you to a state conducive to capturing our comments. They are repeated day after day, but there may well be in such messages a sentence or some hint capable of touching a sensitive heart. The repetition of a ritual is necessary and constructive on such a journey; it leads to a realisation and the opening of psychic centres. This entire process is beyond human understanding, but it is so very necessary here where it generates such results. It is not easy for the aspirant to take stock of his or her ability to rise up, to integrate our teachings.

At the human level, some aspirants find these messages trifling, but the reality is quite different. Bringing a being to a satisfactory level of consciousness is the objective. Many steps are to be taken, and each one manages this at his or her own pace; there the Master's help is essential. The living Master has the power, the true power of action. Being invested with a cosmic charge by the power of the united Masters, he is thus equipped to act appropriately. This is not an improvised nomination; it is decided by the alliance of the Masters in full awareness of its importance at the human level. Who can

deem themselves capable of appropriating such a role! Precedents exist, and they did not lead these initiatives very far at the human level. Their actions will be lost in time, and they will have to account for their deeds motivated by ambition without any other valid reasons. Humans are like that; they sometimes let themselves be carried away by baseless considerations. The current Master has suffered greatly from such initiatives; we have resolved them in our own manner.

May all our abhyasis consider our choices and actions at their true value – thus is revealed the real mystic, the enlightened seeker, blessed in his or her quest for the Divine.
