Augerans

(After the 6:30 a.m. meditation, Janine L. introduces me to an abhyasi from Paris, Jacqueline C., who, according to her, also loves Babuji very much and whom she knew well.

She is not a medium, but she communicates only with him, she told me. She does not know that such is my case.

Around 11 a.m., I arrive in the hall. She is seated in front of the platform where Master sits, right in front of Babuji's portrait. She stands up and comes towards me. She tells me: "I was wondering how I was going to find you to give you the message I have for you from him (Babuji).")

Tell her that I will be there until her last day; we knew each other in another life. Lalaji also knows her, I introduced her to him at a birthday celebration (April 1991). Blessings to you both.

Babuji

(By the grace of Babuji, present, and at her request, we had a very beautiful meditation together.
I thus received confirmation from another source of that said introduction to Lalaji, of which I have no memory.)

(9:00 p.m. prayer. Alone in the caravan. An immense sadness overwhelms me: my Master is so close, in the annex building, but I cannot walk to him. It is a real suffering of heart. Babuji gives me the grace to come to me.)

Don't be sad; your house is getting bigger and more beautiful. One day your light will be visible to all those willing to see it.
