Whispers from The Brighter World

Thursday, July 25, 2013 – 10:00 a.m.

See how these latest messages have touched hearts. Many of our abhyasis have felt them very deeply in this particular context of their Master's birth anniversary. On such days, they benefit from a very special vibration. Nothing about this can be assessed objectively, and yet the day humans are able to evaluate such phenomena, humanity will have made a great step forward in knowledge. Human beings are intrigued by so many of these unexplained phenomena. The majority of researchers are not going in the right direction; they deny manifestations that defy reason. In this regard, the current era has not yet reached a deeper view of things.

As far as our faithful aspirants are concerned, the effect is certain. May they all persevere in this direction. They have made the right choice in this regard and we are happy for that. The Sahaj Marg path will mark on its time in the appropriate manner. In hindsight, these comments will be proven right.

May all the pure in heart see the light and always be enlightened adequately, while following this way of the heart, so noble in its effects. Blessings to all our aspirants! May they be strengthened in their convictions and make great strides; such is our dearest wish.

Babuji
