Whispers from The Brighter World

Tuesday, July 30, 2013 — 10:00 a.m.

Years pass by and we are always there, on both sides, to carry on this procession of messages. They are a great asset to our Mission; the future will assess this even better, you can believe it. Hearts are nourished by reading them. Blessed are those who accept them and feel their effects; these are precisely the refined beings for whom they are given.

"Evolution takes place very slowly on Earth where so much negativity is released, causing pollution even where it is least expected — that is saddening. May the time of perfection come soon; but can it exist in this world? The divine laws keep their secrets very well. The abhyasi is left with this way out: to progress in his spiritual quest and to go beyond the present stage. It is always possible to do better. We offer to all a way to truly grow and acquire the desired condition with regard to the longing of the soul.

"It is up to each one to be committed and to become aware of the opportunity granted them to follow a path that promises true results, and not just pious hopes. The saying goes that everything has its raison d'être, and this maxim applies in this context more than ever. We want the best for everyone and we are working accordingly. It is up to each one to respond according to their true aspirations and to advance as best they can. A day will come when the divine goal will be achieved. Blessings on this entire Mission — chosen for this time, and especially blessed."
