Whispers from The Brighter World

Thursday, August 15, 2013 — 10:00 a.m.

Once again, the Great and Revered Lalaji has shown himself to you in the most beautiful manner. The greatest love stories endure over time, forever leaving their mark on hearts. Such days are moments of grace for the Mission. May our abhyasis not lose sight of them, as they are unique among their kind. Masters of this stature become incarnate to help humanity on its sometimes very difficult path. Referring to these Great Beings is a sign of wisdom and also of humility; recognising one's smallness denotes genuine potential.

"Our way attracts hearts in need. When a thirst for the Divine comes forth within them, they choose a suitable path, sometimes after several attempts. When the soul is determined in the choice of its Master, the path appears before it. Progress is proportionate to demand; when the demand is high, it is surely heard. We can see that many hearts, fervent and eager to go further, are opening up to the quintessence of the Spirit. They attract our attention and the grace that befits such situations. 'The Chorus' of Sahaj Marg Masters rejoices in such circumstances where love is further manifested in our Mission. May all be carried and blessed."
