Whispers from The Brighter World

Wednesday, August 21, 2013 — 10:00 a.m.

Transcend the miasmas of material life. This suggestion helps you to forget your worries, and to go beyond — towards this Eden where everything is forgotten. There, in that Eden, the union of our hearts is realised. Our hearts are watching over this great and beautiful Mission whose action will spread across the world as planned. Within you is that blessed place where every day our attention instils these words. They are expected by many of our brothers and sisters, some of whom are beginning to realise the benefit of reading them.

"Nothing is done in vain; humans are easily confused by what they do not know. Future times will be more in tune with the communication of the spirit. Such communication has been used since time immemorial, especially among certain peoples who are much more advanced than Westerners tend to believe. One thing at a time — the world is constantly changing. Imperceptibly, changes are taking place, and one day these will generate refined beings more receptive and more capable of grasping the inconceivable than human beings of today.

"In its own manner, the way of Sahaj Marg is preparing a future that will be more conducive to real spiritual progress. Humanity is advancing step by step at its own pace, which is not the general pace. The mysteries of life are unfathomable. Our abhyasis must become more and more confident. In this world where illusion prevails, the path we offer them is more effective than it may seem. Blessings to all."
