Whispers from The Brighter World

Friday, August 23, 2013 – 10:00 a.m.

Our perceptive abhyasis manage to draw out the quintessence of these messages, which reach their chosen target and benefit everyone – fervent or not – with their vibration. In this, the power of the spirit is sovereign. It takes time on this Earth for the best to be achieved. One has to look back to see the progress made in many areas and look ahead to a future world that is gradually being built. There is much to do, and a spiritual way like this one works towards changing human beings and bringing out the best in them. This is a valuable asset, the one and only true possession of humans. We insist on this point to encourage our brothers and sisters to continue this search for the Divine. We repeat ourselves tirelessly so that, when the time comes, the being will awaken to reality and marvel at possessing such a treasure. All is nothing, except for this divine power that is sovereign everywhere and in all things. Nothing escapes it; it is the truth of life – the only truth that is never denied, because it is eternal.

Blessed are the pure in heart; being inspired and fervent, they carry within themselves the future of this beautiful Sahaj Marg Mission, given to human beings of this time for the preparation of a resplendent future. They are following their Master; they work for him and they possess this sacred flame, capable of bringing to the height

of its action this beautiful way of the heart, where love must prevail. This energy is unique; may all be aware of it under our blessings.
