Whispers from The Brighter World

Wednesday, September 11, 2013 – 10:00 a.m.

This world is in such a state of suffering! Do human beings truly realise it? Is there a place on Earth where all is peace and harmony? How to convince people that everything could change if they really wanted it to! Disturbing ways and means, unworthy of this so-called highly advanced civilisation, are currently in use. There is still a long way to go and a refinement of consciousness needed before a real peace can be established in this world. We are working towards it, but our means are totally different. One day they will bring about a change that today's humans cannot imagine.

Everything is slow here below; this pace cannot presently be accelerated or modified in any way. The system will have to change in its entirety so that the realm of wisdom and a complete openness to the Divine can be established. These times are being prepared; they will be very important. People of today would be astounded if they found out what the future holds. It will not be science fiction, but an exemplary reality. The current negativity must be stopped in order to preserve this beautiful planet Earth, where it is possible for everything to move towards excellence.

May our brothers and sisters engaged in this spiritual process become aware of the fact that everything could change in people's hearts as a priority, if they fully invested themselves in this sublime quest for the Divine. It is up to each one to see and to become well aware of the opportunity that is opening up for them to contribute to this elevation

of consciousness for the good of all. May they be strengthened and convinced by our words.

Blessings.

Babuji
