Whispers from The Brighter World

Tuesday, September 17, 2013 – 10:00 a.m.

We have come a very long way with these messages. They are an expression of the Divine, offered to this beautiful Sahaj Marg Mission. They contribute, and will do so increasingly, to the development of the future world – one that is refined and restructured, offering new foundations for a humanity that will be more awakened to what is essential than it is now, in these troubled times. Everything is falling into place slowly here below. Such are the laws at present, but a day will come when everything will shift to a new and redemptive order for humanity. Changes on this scale already occurred a very long time ago, allowing human beings of that era to take a significant step forward. Nothing is immutable here below; all that lives on this Earth testifies to the fact that everything moves and renews itself over time. Change is the essence of evolution. This is true not only for the human race, but also for everything that lives and follows the pace prevailing on this planet, which is itself a minuscule element of creation as a whole.

Let us return to our subject – may Sahaj Marg increasingly win over hearts and provide them with an element of spiritual life on this Earthly journey. Each incarnation offers an opportunity to rise, to refine oneself for another journey yet to come. Life never stops. It continues on other planes of consciousness and deserves all possible care and attention. To each one, the best; may all be strengthened in the face of adversity and fulfilled in their deepest wishes concerning their evolution.

Blessings to all.

Babuji
