Whispers from The Brighter World

Sunday, September 22, 2013 – 10:00 a.m.

The Sahaj Marg Mission is growing, consolidating its material foundations to better ensure its spiritual expansion. Human beings need a grand representation of their ideal of life at this level. In their own time, the most magnificent sites of this kind have left their mark on people's minds, and they continue to do so. Our Mission is called to a bright future; it is making progress and will touch hearts more and more. It is offered very promising prospects, and it will seize on them at the right time; we support all projects that are geared in this direction. Currently, material life is difficult for many human beings, but this does not minimise in any way the beautiful advancement of hearts towards a spiritual elevation – one that is so necessary in a world that is troubled and confused on all fronts.

Everything in its own time: new foundations will be established here below and they will enable humanity to achieve an unprecedented elevation of consciousness. Let us work accordingly; at this level everything is yet to be won. The divine laws are putting in place what is suitable for the development of a better world, much more in line with a reality that is unknown in the current state of affairs. Let us prepare that future, and for the time being, let us rejoice for the progress of our beautiful spiritual path, offered to men and women of our time. Thus is achieved that which must be.
