Whispers from The Brighter World

Tuesday, September 24, 2013 — 10:00 a.m.

Calm yourself, and our communication will be facilitated. Let these waves of love carry you and make you forget the baseness of this world in these moments that bring bliss to your heart; thus is the secret link that binds your heart to ours. This introduction allows you to access today's message. What will it be today? There are so many messages yet to be known. Everything will come in time. Our abhyasis are making progress; the vibrations are being refined and tend to foster a rise in consciousness, albeit very slowly. This is how it is in the world of humans. Perceptions are becoming more subtle, and humanity is emerging gradually so that, one day, a very different mindset will be brought about. All this is not utopian; such changes have been occurring since the beginning of time. Perfection is far from existing here below, yet one day, perhaps, everything will be different; the divine laws are operating accordingly, and everything is possible. Our way too, as far as possible, is contributing to it for the good of our aspirants and all those who trust us. Nothing is easy — everything has to be earned. For this, the commitment of the heart is crucial; everything takes place there, in that sanctuary whose subtle aspect is largely unknown to humans but instrumental for spiritual growth. One day, the divine goal will be reached. That is the objective for all our aspirants; sooner or later they will all achieve it. For that, faith, courage and a sincere commitment are valuable assets capable of attracting our attention and blessings."
