Whispers from The Brighter World

Wednesday, October 2, 2013 – 10:00 a.m.

These meetings of the heart have a certain impact on our brothers and sisters across the entire Mission. Whether they are involved in the process or not, they benefit from these unique moments when this vibratory charge is operating, allowing for the transcription of our words onto paper. This is something unique in history, and it is to be considered: such a wealth of messages is bound to have a privileged place in our beautiful way of the heart. Everything has its purpose. Nothing is too much when it is about helping our brothers and sisters advance as they wish. Our constant action is there, and at all levels. The living spiritual Master holds the power vested in him to act in this world; the higher powers see to it. Thus an extraordinary work is carried out within the Mission whereby everything is done to achieve the best.

We cannot iron out all the difficulties on the material level; our work goes much further and it defines the fate of each one according to his or her personal commitment. Nothing can be forced, but an open and loving heart receives in proportion to its call. Thus is achieved that which must be. A soul that awakens to higher reality is of great beauty; it delights us in its splendour. Working in this direction is a true joy. How can we not rejoice to see our abhyasis making progress, even if they do not truly realise it.

May more and more beautiful souls open up under the beneficent rays of divine love – in this lies the awaited result. May all be blessed and strengthened.
