Whispers from The Brighter World

Saturday, December 7, 2013 — 10:00 a.m.

Every day is an opportunity granted to humans to grow while trying to understand the true meaning of life and what determines the perpetual cycle of reincarnations. No path is easy. Each journey is adapted to the evolution of the being concerned. Many lessons must be learned in order to perfect a behaviour or a way of being and to work on one's weak points. It is not easy to understand all these reasons. Human beings do not necessarily see the purposefulness of things. For the majority of them this vision is limited to their own person, and the reality of life eludes them. A spiritual way like ours helps in this regard. Yet one must be willing and eager to act — we wish that for all."
