Whispers from The Brighter World

Thursday, December 26, 2013 — 10:00 a.m.

Lord Krishna, this very Great Being, has always supported our Mission. In some circumstances he manifests himself, touching the heart in a special manner; you know this first-hand, my dear daughter. This kind of experience is unique; it transforms the being of the lucky few. It is an infinite grace and it cannot be forgotten. It takes discernment for a person to make sense of things in this world of illusion where sometimes even the most prudent can be mistaken. In these writings, a reality is being expressed — a teaching that benefits the whole Mission by the grace of a living and enlightened Master who values it and who has been disseminating it since its inception.

"These writings continue to have a presence in our Mission and they will be a valuable and important legacy for it. Everything has a purpose, and nothing is useless on the spiritual plane. The hierarchy of Masters is well established and it works to bring about the best; this is not about to change. With this teaching and the incessant action of the Master, hearts are changing and becoming open to the higher reality. The years have confirmed results that are clearly established now; benefitting from such a favour is not commonplace. Having a living Master who has reached such a level of spirituality is an infinite grace. We are pleased to see this Mission grow, with more and more people enjoying this heavenly manna. Blessings to all."
