Friday, January 3, 2014 – 10:00 a.m.

Forget the external turbulence; don't you have within you this blessed place where the essential part of this contact occurs? Reading these messages in a suitable state of interiorisation produces the best effect. We revert once more to this issue, as it is indispensable. We want the best results for our aspirants; this reading induces calmness and harmonises the subtle bodies. Doesn't everything have its raison d'être! To follow a spiritual way is a very special commitment, whose action goes well beyond the material.

A deep meditation raises vibrations and leads to a more sensitive perception of the transmission as it is applied in our system. Some of our aspirants feel this subtle energy. In any case, each one receives according to the profound call of the heart. Nothing is without purpose in this area; everything is counted. Each one advances according to his or her commitment and fervour, but all benefit from the best. It is not easy to understand this process which has proven itself over a long period of time. The seeker needs very precise assistance in this domain where the mind is not dominant. The spiritual heart has its expectations and certain rules that are justified, so great is their subtlety. They are not really known. The present-day world neglects them, as they are

not among the objectives to be attained in this material realm. Happy are those who are advancing in this direction; how very blessed they are!
