Whispers from The Brighter World

Saturday, January 25, 2014 – 10:00 a.m.

Our long journey together has helped bring up more than one aspect of spiritual life. It is a life rich in resources, and its effects transform beings who are open to its splendour. This life will not end; it is limitless, soaring above materiality with brilliance, touching and transforming humans according to their personal dispositions. All are different; whether one has the potential within or is unexpectedly touched by grace, each is led to the same goal when destiny so decides.

Some conversions are 'earth shaking', one might say; very great saints have demonstrated this, their history remaining in the memory of time. When a soul is called, nothing can hold it back; it goes in the desired direction and the way that suits it in this incarnation, in order to accomplish what must be. Each person's evolution is decisive. The guiding thread is love; without it, nothing sustainable and beautiful can be created. Love at this level is a very subtle and rare energy. Its effects can work wonders when it is taken to the highest level of spirituality in living memory.

Everything passes, everything changes in this world, but the ledgers of time flawlessly record what must be remembered. What is good for human beings, for their evolution, endures and defies time; our spiritual path is meant to last a long time. So is it intended, and so will it be. Despite the upheavals to come, what is good shall

withstand the greatest torments. Love, faith and surrender are the most important and lasting aspects here below. May all be aware of this and act accordingly.
