My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Saturday, February 1, 2014 — 10:00 a.m.

The birth anniversary of the Grand-Master — the highly revered Lalaji — is being prepared. His unceasing and grand action has made the Mission what it has become through his support to the Masters who have succeeded him — and so will it always be. This great and beautiful soul is blazing in the kingdom of heaven, where he holds a remarkable status. The Mission owes much to him. He deserves large-scale celebrations; this will always be worth considering.

"The living Master is faced with continuous trials and troubles inherent with his duties. Such is the world of matter: no one is spared, not even the great ones, those missioned by the Divine. They are truly faced with so many difficulties, from which they emerge strengthened and with increased stature in order to access what awaits them in the future.

"May all our abhyasis consider these celebrations as is proper; such is our greatest wish. The Mission is a whole; it is carried and supported in every aspect of its manifestation in this world. Nothing so great could be accomplished otherwise. The forces of good, in their own fashion, thwart anything that stands in their way. Everything has its raison d'être. Let us continue to work together for the good of those who follow us and trust us to overcome the current stagnation of a humanity weighed down by negative forces. The way of the heart is a redeeming one — a true blessing that benefits all dedicated abhyasis. The best to all."
