Whispers from The Brighter World

Sunday, February 2, 2014 – 10:00 a.m.

This day is so very blessed! The Grand Master holds a unique place, and he will continue to do so over time; initiator of our way, he gives it a stature blessed by the gods. The future will confirm all that we are saying; it takes quite some time to impress at the human level what is essential to the transformation of incarnate beings on this Earth. Sahaj Marg participates in the evolution of those who follow us in this active and unprecedented practice. Everything is intended as such, and it corresponds to the current stage of humanity. An enormous work is yet to be done. Many souls aspire to rise, to progress and to understand the subtleties of life in the real sense, that which education in general avoids addressing in its complete truth. Everything comes at the right time; it will one day be necessary for all human beings to understand the true meaning of life, which is far from being the case today. The Age of Enlightenment is not an illusion, but a reality – one that will allow humanity to go beyond this distressing stage in its understanding of phenomena and of everything humans should know as a matter of priority. To keep human beings away from what is, in reality, is no longer appropriate. A widespread awareness must come about; nothing will stop this movement essential to human evolution. Keeping people in ignorance for

outmoded reasons is unfitting in current times, and especially so for times to come. May all our abhyasis progress as we wish; everything is planned accordingly. Blessings.

Babuji
