Whispers from The Brighter World

Tuesday, March 25, 2014 – 10:00 a.m.

Many upheavals will occur on Earth; they will completely change how things are viewed and allow human beings a truer approach to reality, for their own good. We cannot rush anything – we would not be understood, and moreover, our goal here is to bring our abhyasis to a higher level of evolution. There lies the essential thing, since this asset remains and is found again from life to life; thus nothing of it gets lost, and it deserves to be dealt with in the best possible way.

The principle of reincarnation is still a mystery to many human beings; certain cultures not only fail to mention it, but also totally neglect this important aspect. Following a spiritual path opens up perspectives that lead to a better understanding of oneself and the importance of a method such as the one we propose. Happy are those who understand this and who progress through the practice and the teachings as a whole. It is not easy to evaluate for oneself what such a method brings; understanding the importance of having a spiritual Master, and following such a path, indicates an openness of mind and heart sufficient for making great strides. We can truly evaluate the results today, after decades of work leading our aspirants on the right path, that of a planned evolution benefiting all. Everyone is advancing at their own pace, but all are followed and carried according to their receptivity; the assessment is very satisfactory

and makes us happy for all our brothers and sisters who are committed and motivated as is proper. Blessings to all.
