We have already alluded to the fact that the visit of my son in Augerans was a blessing for you all. If you can, do not miss this kind of opportunity of going towards him. We do not ask you to go there at all costs, by creating conflicting situations with your circle, or by severely straining the finances of the family.

"In Sahaj Marg, we are far from such a rigour. A heart that suffers far from its Master is not forgotten. Certain circumstances of life are such that all the abhyasis cannot do what they want for various reasons. This is very comprehensible. There are insurmountable difficulties, which we understand easily. We are not tyrants, and you are not in a 'sect'. In Augerans or at home, it is the sincere union of your heart with the heart of the Master that counts. If such is the case, you receive what you would have received at that place.

"Negligence is another issue. As we have already said and repeated, we do not force anybody. We propose an effective system. Many have recognized it as suitable to them; we are happy. In general, you should do what you can, but, whether you are by Master's side or not, let Love be in you and manifest itself towards him as well as in all acts of your life. It is imperative to properly specify things. You have our blessings."
