Whispers from The Brighter World

Thursday, April 24, 2014 — 10:00 a.m.

The vibrations are changing imperceptibly in some areas across the Earth and are gradually becoming more refined as a prelude to substantial changes to come in a distant but real future. We have provided some pieces of information on the subject, and we will continue to do so once these have been assimilated. The basic teachings will not change, although certain aspects will conform to the situation as it will be at that time.

"The teachings and the work of the Mission in general help the aspirant in different ways; preserving their vibratory integrity is a positive and essential point. The subtle bodies of the human being determine his whole personality, and they must be harmoniously aligned, shall we say. Our practice helps in this, supporting what must happen naturally — though it is not simple in these times that are troubled at all levels. The incarnate physical body is an aspect of the human personality. While the majority of men and women have yet to probe the depths of what it really is, many in this era are able to grasp all its subtleties. Following a spiritual way like Sahaj Marg offers opportunities, and we are available to offer abhyasis some enlightening insights into their own reality. Ignorance has been maintained here below for so many centuries; this will be remedied in the future, and our way will participate in this challenge of leading the seeker to true knowledge, a knowledge to which many of our brothers and sisters aspire. This will happen; this is how it goes."
