Sunday, May 4, 2014 — 10:00 a.m.

Prepare your heart to receive the fruit of our love for the entire Sahaj Marg Mission — this Mission that is intended to meet the inner call of so many brothers and sisters in this world. Our work is not an illusion, as is this world of matter when compared to higher reality. Higher reality manifests itself in our way for the good of all those who follow it. In its own manner, our way is preparing the coming times during which a new and better structured world will emerge from the current tribulations. Such is creation at the highest level of the powers that govern it. Nothing here below is perfect — far from it — but different structures are being put in place in view of the emergence of a humanity that will be more just in its major principles. Everything happens slowly in this world, following the Earth's characteristic vibratory movement; many aspects that are essential to the whole of life on this planet are yet to be discovered by humans.

"Some Great Beings will become incarnate in the coming times. They will disseminate across this Earth a teaching, the importance of which cannot presently be imagined by any human being, nor can one imagine the amazement it will stir. Humanity will then have taken a big leap in time, and it will understand the meaning of many teachings, the process of which we are starting here. Blessed are our brothers and sisters; they are, in a certain way, the current pioneers of this unprecedented advancement. May all truly commit themselves to this way of hope for a better world — one that will be fruitful for all humanity."
