Whispers from The Brighter World

Saturday, May 10, 2014 — 10:00 a.m.

Time always gives importance to elements that are deserving — including these messages, which were not accepted by some of our abhyasis initially but have now begun to touch them. Life is like that. Even in this very special area, some people — for the wrong reasons — remain impervious to what might help them. This is how it goes, may we say once again. What matters is that these writings exist and are important in our Mission. This beautiful testimony from a Swiss abhyasi proves it to you once more; this beautiful soul touched by grace delights in loving.

"You see how important these writings are. Every day the pencil becomes active, and it covers the paper with messages coming from the alliance of Masters and carrying our energies. Everyone understands them in their own way, according to their receptivity and readiness to receive. Many of our brothers and sisters benefit from these teachings. Over time, they will become a reference for our Mission. Our way has more than one asset, and time will give this path an importance beyond your imagination. The call of the Divine will be increasingly felt; scores of elite souls will come and help humanity emerge from the current cesspool where so much ugliness and so many unnecessary wars are destroying all harmony and hindering human evolution. Let us keep working, with confidence in a purified humanity that will open up more and more to this higher reality. Unceasing blessings."
