Whispers from The Brighter World

Friday, May 23, 2014 — 10:00 a.m.

A day will come when the divine goal will be achieved; isn't this prospect heartening! The concerted action of the Masters and the commitment of all our brothers and sisters create a vibratory motion through which spirituality can work wonders. Nothing is obvious here below; we, we can see the results, and they are encouraging. All these years of perseverance and commitment to this way of the heart, whose effects are essential, have yielded the best outcome.

"How can we not rejoice and emphasise it once again — the future will confirm our comments, and the Mission will hold a choice place in this world. Tomorrow's world will be different: when humans have reverted to real values after multiple upheavals, they will comply with a lifestyle that is more conducive to an unprecedented spiritual evolution. That time is not for tomorrow, but it is coming. Valuable time is saved by following a spiritual way more in line with what humanity will become. Each incarnation is supposed to help humans advance in their journey towards the Eternal. An incarnation offers humans a rare opportunity to progress, to cooperate with the work of the Master who is in charge of their eternal destiny. All are precious and are followed accordingly; time is short and we want excellence for the whole of this extraordinary Mission. All participate in the great feast in which the soul delights in loving and worshipping the Great Beings dedicated to their elevation towards the best. To all, blessings and love."
