Whispers from The Brighter World

Tuesday, June 3, 2014 – 10:00 a.m.

Detach yourself from the world during these blessed moments, and come replenish yourself in us. This ritual requires more concentration and surrender on some days than it does on others. Once serenity is regained, this extraordinary contact can begin, where your heart is fully offered to this transmission.

These writings convey the best; well beyond words, they have a favourable impact on the reader. Nothing is done in vain in a spiritual way like ours, and this is true at all levels. This long epic of messages will leave its trace on the history of our way and in the memory of our brothers and sisters. On the material plane, time is building our Mission, which is expanding in the world. One could say this is just beginning – its impact will continue to grow. Humans are evolving, more and more confused by this material world with all its destructive energies. Progress comes at a high price, causing many of the illnesses from which humans suffer. How to avert all this? Other opportunities open up to human beings, but one must still grasp the importance of an approach like ours.

A life is short – one had best not waste too much time neglecting what is essential, namely, spiritual evolution. The soul longs for it but is not always heard, which is a pity; modern life does not have all the answers, quite the contrary. Blessed are the pure in heart, for they shall see the light; it is up to each one to call for it and to hear the

replies; they are not lacking, yet one must still know how to listen. For this, it is up to each one to act as best they can.
