Whispers from The Brighter World

Friday, June 6, 2014 – 10:00 a.m.

Let yourself be carried on this powerful wave, as you so aptly call it. Our energies provide for it; they favour this unusual transmission that enables you to receive these many messages. This is no ordinary feat, and it is to be considered at its true worth.

Our Mission is desired and supported by the higher powers. It is meant to endure, to leave its mark on the present and to prepare the future. The acceleration of human evolution is in the offing; these forces provide for it in their own way, and Sahaj Marg corresponds to these extensive projects in the framework of a planned evolution. Everything takes place very slowly on Earth, and we must adjust to this pace to foster as perfect a presence as possible in this world of matter. This world is not as receptive as we would like, but that is how it is – once again we arrive at this conclusion. The important thing is the journey already travelled and the results achieved by most of our abhyasis; we are in a better position here than anywhere else to judge and appreciate this. Time and perseverance bear fruit that will endure. It is important to redouble one's efforts, to not get discouraged and let material considerations take over. You have our support; it is with you, invisible but active in its own way. Nothing is lost and nothing

*is in vain. May each of our aspirants find the determination in themselves to advance at all costs, carried by this extraordinary egregore.*

*To all, the best, and our true support.*

*Babuji*
