Whispers from The Brighter World

Tuesday, June 10, 2014 — 10:00 a.m.

All these beautiful stories from around the world are evidence of the impact these messages are having on the hearts of our abhyasis. Nothing in this area happens in vain; we here can see how much the messages help our brothers and sisters on a daily basis. Why would they have been given for so long if they were not so important for the entire Mission? Sahaj Marg has many strengths, which of course include this one. The purpose of our comments is to motivate our abhyasis, to lead them into a regular practice whose effects are dynamic. This purpose is coupled with a simple teaching, one that is within the reach of all, without being demanding.

"We want the best possible. All have their own problems — an incarnation is never simple, but it remains the most edifying when a journey such as this is carried out day by day, over the course of time. We here can assess better than anyone else the impact of all these actions on those who trust us. Those abhyasis who are truly committed to serving the Mission save valuable time; regular practice is a commitment of the heart, whose effects remain in the annals of time. They leave a very positive mark on the being, and this achievement is undoubtedly very precious. Sahaj Marg is recent history, one might say. It arrives at a most opportune time, at the cusp of two worlds; it will leave a strong impression, whose effects will be realised in the future. This prospect delights us greatly. It's up to each and every one to do their best and to become aware of the opportunity they are granted to advance — genuinely so. Our unceasing blessings."
