Whispers from The Brighter World

Friday, June 20, 2014 – 10:00 a.m.

Time gives value to these messages, and this is just beginning – so it is. Everything here conforms to the laws established by the higher powers. The Great Spiritual Beings who have influenced humanity support our action, a necessary action that generates the best results in a world that truly needs it. An enormous task lies ahead, and a great number of changes will help in this. Thus, the advancement of each of our brothers and sisters is decisive.

We come back to the importance of the egregore that is spreading across the world and that results precisely from individual commitments global in their effects. The role of the incarnate Master is necessary in this era of obscurantism – one that is not recognised as such, though the reality is there.

In the future, an unprecedented evolution will occur and dramatically change the action of divine forces, especially in a path that can help humans find their bearings here below and guide them spiritually. The more the Mission grows, the more consequential its action, at a level that humans cannot assess. Sahaj Marg finds its place in this pivotal era wherein the above-mentioned change is being prepared. It would be good if progress were to go beyond the stage of materiality; what is most important lies elsewhere and is not regarded as such by the average person.

Blessed are those who aspire to spiritual evolution; they are moving in the direction of absolute necessity, which fortunately will become the law in the future.

May none lose sight of this prospect, as it is decisive in many ways. With all the love possible, what must be will be.
