Whispers from The Brighter World

Tuesday, July 1, 2014 — 10:00 a.m.

A great many messages have been given here in an extraordinary manner; this is unprecedented in the history of spirituality. At the dawn of a new era, we have had to offer a slightly different teaching that can elicit questions and motivate our brothers and sisters who need an advancement that is sure. Pleasing images are no longer enough, so it seems. The seeker expects something else — namely, a practice capable of producing tangible results. There is progress, and though it is imperceptible, its impact is lasting; this achievement will only be further enhanced in one's quest for absolute splendour. We do not mean to present you with dreams, but rather to encourage our abhyasis to progress, to conquer a sacred space in themselves, with our blessings accompanying the very special work of their living Master. This is unprecedented: the time has come when we must act in such a manner for the good of this humanity that is suffering in so many ways. The human population has never reached such a large number. Beings no longer have any real bearings and are moving in the utmost illusion, generated by an exacerbated materiality. Violence has reached a dangerous level; how to change this wave that disrupts the energies that are essential to life? Divine powers operate in their own manner, and very effectively, to restore order here below. Such is the current picture of the world where so many noble souls are looking for their path with a yearning that is deep and sincere. May all be helped in the best possible sense. You can be sure that one day the divine goal will be achieved. This is how it goes."
