Whispers from The Brighter World

Friday, July 4, 2014 — 10:00 a.m.

This collection of thousands of messages is not common place. Channeling capabilities are not enough to produce such results; much more is required. It is by divine grace that our Mission benefits from these messages. You can be sure the future will justify this statement, as many events will confirm what is stated here. These will occur over time, leaving no doubt as to the source of these messages. Divine power manifests where it wishes, and the power of victorious love is great; humans cannot imagine what it can achieve. It is often enough to want this love with all one's heart in order for it to grow inside oneself, in a manner unforeseen. Life hangs by a thread, and that thread holds resources, whose possibilities are inconceivable to humans.

Our 'Taj Mahal', as one might call it, is being built in the Mission in India, the chosen land for this beautiful spiritual path that is growing throughout the world. It will typify the power of this love which is advocated in our way and which offers many resources. This place will be highly charged, more than can be imagined today; time will confirm our comments, you can be sure. Some places in the world are centre points of a sacred energy that is indefinable in human terms but surprising in its effects. Everything is taking place slowly, yet as intended by the higher powers; thus will this beautiful place exhibit an extraordinary power that will benefit our entire Mission. This makes us extremely happy."
