Whispers from The Brighter World

Thursday, July 24, 2014 – 5:45 p.m.

Not respecting our choice is a serious matter; here, we are better placed than anyone to appreciate and assess a situation. Who has the right to consider it incorrect, regarding the succession of our dear and great son, so beloved? Criticisms are highly inappropriate and create a negative climate, even more so for those who are creating it and not respecting our choice. It is saddening to see the same situations recurring, especially considering the consequences for those who bring about this unfortunate state of affairs; precedents should be borne in mind.

May those concerned regain their senses and respect the Hierarchy and the current Master in his timeless and spiritual nature, far from all human baseness. May these brothers and sisters who have lost their way in these troubled times return to reason and rightly respect the decisions of the Hierarchy – decisions that are divinely inspired – for their own good and especially for the good of the whole Mission. This is a delicate moment for the Mission with regard to the health of our dear and great beloved son. Transgressing the rules is a serious breach, the consequences of which would be very unfortunate for the people concerned. May all become aware of the gravity of the situation and respect our choices; they are judicious, as will be demonstrated in the future. So it is; it is up to each one to see and assess the situation far from the human

meanness that is inevitable in this world. May love suffuse hearts and purify them as needed. Unceasing blessings.
