Whispers from The Brighter World

Tuesday, July 29, 2014 — 10:00 a.m.

The suffering on Earth manifests in more than one manner; no one can escape it. Sooner or later it catches up with a human being, who then must accept it. It is precisely this that is important: how to handle tests, as rebelling does not help. It is wiser to be accepting, but this is not always easy to achieve. Each test in its own manner addresses a problem and what, exactly, the nature of the problem is. The laws of karma are not explicit; an incarnation retains its mystery with regard to its most critical aspects. Surrendering to the Divine, to the Master — who, as an incarnate being, manifests the Divine — helps put things into perspective. Wisdom grows over time, and its effects are felt with the passing days, as each one offers an opportunity to grow. Positive experiences that one acquires are very precious. They build the personality under the guidance of each person's spiritual entity, according to his or her development and the direction that this entity provides in broad outline. This whole process is unknown to most humans, as these laws are very complex; only the great sages who have come a long way in this area are able to understand the essence of it.

"Everyone is advancing in their own manner. Our abhyasis are offered an opportunity which they use according to their personal feeling and a very strong aspiration to attain this sacred space; in this regard, many of our brothers and sisters are truly successful — this makes us so happy. A special vibration settles into motivated aspirants and their circle benefits from it. Blessed are our faithful abhyasis. They are making strides; they can be sure of this. This is how it goes."
