Whispers from The Brighter World

Wednesday, August 6, 2014 – 10:00 a.m.

Take refuge in this sacred place, where everything to do with human vicissitudes is forgotten, and taste this deep and unique joy that dwells in your heart. Progressing and refining oneself allows a much more subtle approach to these delights. This ritual is always the same, and yet nothing is alike; each day brings its colour according to the state of mind and the surrender that prevail in these moments. Here in these messages, words and sentences line up so as to touch the hearts of our brothers and sisters. Each person, according to his or her personal feelings, reaps the desired benefits. We would like to meet the wishes of one and all, allowing them to pass through the levels of knowledge at great speed. All of them receive according to their own aspiration.

A permanent state of receptivity and a deep and heartfelt call initiate an action, a process leading to the constancy of this desired transmission. All have their own pace, their potential and all that constitutes the personality; this kind of process, too, allows aspirants to take as their own what is deeply desired, with ardour and true love. Nothing is simple, and so it is with human beings; their complexity has grown with time and the evolution of the human race. In this sacred space where all things find their origins and their engagement, coming back to simplicity creates a more favourable inner disposition. Surrender, so often mentioned here, is not in vain; it saves precious time by lifting inappropriate resistances. One day the divine goal will be achieved – that is the

objective. May all hold fast to it and not lose sight of what is essential, hence the reason for a commitment to this way of the heart. That is where it all begins and is built, for a success desired by the abhyasi, supported in his or her quest and carried by our love. So it is.
