Whispers from The Brighter World

Friday, August 8, 2014 – 10:00 a.m.

Love is the most noble food of the soul; it is distilled with the passing days and permeates the entire being. Is there anything it cannot do? It transforms life when it is devoted to the Divine. So many Great Beings have left a mark in this world, in the service of a beautiful and noble cause. Only this love can bring about effects that defy time. Not everyone is in such a light and yet their lives behind the scenes can be dedicated to a noble action. Good and evil coexist on this Earth; this is how it goes and it is not about to change. Working towards human evolution is the current challenge; the road will be long, but one day it will reach that which has long been awaited and hoped for. Our path aims for this: the good of human beings in the most noble sense, based on a pre-planned and constant evolution.

"A spiritual path produces many benefits that are not revealed, and yet real progress is achieved, even if it is unidentifiable. Is that not the most important consideration? Seeing someone being transformed from within and the soul rising little by little is the best reward. Everything is slow here below; this cycle will last for a long time yet. In this as well as in other aspects of life, complexity will manifest itself, and for good reasons. Surely everything has its raison d'être! All these comments are meant to lead our brothers and sisters to interiorise themselves further and further and advance earnestly towards the ultimate goal."
