Whispers from The Brighter World

Friday, August 15, 2014 – 10:00 a.m.

This long journey of messages is not without purpose; increasingly, it will leave an impression in people's hearts beyond what can be imagined today. "Everything has its raison d'être." On a spiritual path, more than elsewhere, everything matters and happens for good reason. In India, where this spiritual path was born, a sacred temple is to be built to the glory of the Masters – those who are carried by the divine power working here below, for the good of human beings. This sacred place will be sought and visited, and for good reasons. Material efforts must be made on this project; it is monumental and justified. The future will prove the appropriateness of these words. This high-level reference point on the material plane will concretise what this extraordinary spiritual path represents in its action at all levels. This fact will be confirmed in the future. Everything is built slowly here below, at a pace at which life unfolds in all its actions.

Blessed are our committed abhyasis, fervent and determined to progress, to achieve the level most in line with the aspirations of a thirsting soul. Meeting this expectation is praiseworthy; an incarnation is an opportunity offered to humans to grow, to raise their level of consciousness, to progress simply and effectively. Our Mission provides for this to the fullest extent; its resources are real and meant to meet a growing call from souls

who thirst for the Divine. Humanity is advancing towards a pre-planned evolution. Sahaj Marg is preparing it, and everything is taking shape accordingly, for the best.

Special blessings.
