Whispers from The Brighter World

Saturday, August 23, 2014 – 10:00 a.m.

Time passes and so do human beings. Criticisms are inevitable, and some people do not realise the consequences of their words and deeds. Everything is taken into account and recorded, one might say, in the ledgers of time. Our Mission is not spared these human behaviours. They have done a lot of harm in the past; our beloved son, your current Master, has not been spared either. Abhyasis can witness today the impact of his action and the potential that led him to this Mission, for its expansion in the world and the winning of so many hearts.

Each of the chosen Masters has his own task; to contribute to the growth of the Mission and lead it to the highest level. Our choices are an expression of the divine will, and that of the alliance of the Masters who are committed to this spiritual movement corresponding to the new era. It is easy to criticise; the future will resolve the damaging effects of these egotistical reactions, in its own manner, as it knows so well how to do.

Let us come back to beauty, to the purity of soul of so many of our brothers and sisters who are committed, with conviction, to this Mission. They see only what is good and the growing impact of its action – the full scope of which our abhyasis as a whole do not yet realise. Everything in its own time; what must be will be. Human turmoil

will not be able to change any of this. The divine will always manifests as it chooses. So it is.
