Whispers from The Brighter World

Sunday, August 24, 2014 — 10:00 a.m.

Everything is taken into account, as you know, and human shortcomings are unavoidable. Even in a spiritual Mission like ours where the best is achieved, beings who are carried along by a vastly inflated ego come forward, believing they can simply do whatever they want. In its own manner, and for the good of all, time resolves some of these cases. Seeing only the positive is a strength, a major asset; it creates that which must be grand and beautiful for this path of the heart whose effects will grow over time for the benefit of all. The Mission is a diverse whole, and so is the world in every way. This Mission is a divine gift granted to today's humans, providing a very significant spiritual guidance amid the current chaos where, for many people, real values are losing their deep meaning. It will take every sort of upheaval for humans to come to their senses. Modern ways do not resolve all aspects of life; in a sense, they make life more complicated.

"Not neglecting that which is essential is a sign of wisdom. Our brothers and sisters made this heartfelt choice and most of them adhere to it. Many are personally committed and thus they contribute to the expansion of a Mission that is blessed for many reasons.

"May each of our brothers and sisters be more and more committed to this process which permits them a satisfactory spiritual advancement, carried by the effects of grace — such grace as is attracted by a sincere heart. Blessings to all."
