Whispers from The Brighter World

Sunday, August 24, 2014 — 3:30 P.M.

Behaviour and criticism against these messages are very regrettable, as some of these messages provide graphic statements about the future of this spiritual way. Who can take such liberties? We only wish to submit information to our dearest son Parthasarathi in a simple manner, so that he can then pass it on to the entire Mission, informing each of our brothers and sisters. A bit of respect for the entire hierarchy of Masters would be welcome; whatever is done or decided in our way at the highest level should be considered important. Our vision of things is different from that of human beings; in our way, it manifests itself on topics that are sensitive and very valuable for its future. Who knows what the world will look like in the future and which laws will then prevail here below?

"Each of our abhyasis has enough to do with respect to themselves, without incessantly questioning the information provided through this means for the sake of all who are committed to this spiritual way — a way that is not subject to certain egos whose continual expressions are regrettable.

"We do not give this current message happily, but it is time for everyone to focus inside themselves on that which is essential and to let us guide and enlighten our dearest and great son as is proper — for this Mission that is so dear to us, and for the good of all. Blessed are the pure in heart, for they shall see the light. May all be blessed."
