Whispers from The Brighter World

Tuesday, September 2, 2014 — 10:00 a.m.

In a distant future, these writings will be considered a reference. They are making their way into people's hearts, and this is just the beginning. Time lends importance to things and events, sometimes when and where it is least expected. The path of Sahaj Marg will be increasingly appreciated.

"After many changes in this world, human beings will return to a more 'normal' life, one that is more centred on what is important and not focused on materiality, as is the case today. This materialism is excessive in every respect and destabilising for the youth who need serious reference points for their own development. The advancement of Sahaj Marg in people's hearts delights us. The work that all of us here are doing is not in vain; it takes time to achieve the goal on Earth. We are confident when we see more and more young people attracted to this quest for the Divine. These beautiful souls are out of the ordinary; they come back with a specific purpose, as do all our abhyasis, though some of these extraordinary souls do so with an uncommon eagerness. The strong commitment of all the beings who are following us is a true blessing for the entire Mission as it is working towards the new era. With its apparent simplicity, the Mission strengthens them in the face of adversity and prepares hearts for the world that is yet to be — a world relieved, on all levels, of the many nuisances that destabilise humans on this journey. It is a rather unusual journey, yet one that suits the divine plans in their scope and power, such power as will be used in due time for the transformation of this world. May love illuminate the hearts of all our brothers and sisters."
