Whispers from The Brighter World

Tuesday, September 16, 2014 — 10:00 a.m.

Let us reiterate: the journey of these messages has been long and rich for our Mission. It will leave its mark over time, so why not say it once again? Human beings need this kind of reference point to stimulate their faith and build on it, while being carried by the love of the chosen Masters. All these aspects should be considered in a spiritual journey; each person acts according to his or her heart, personal aspirations, tendencies and, more often, social background.

"The soul knows where it is going and what needs to be. It is good to follow this inclination when it eloquently manifests. Human complexity has no equal; nothing is ever easy in this world. Accordingly, we must act and go beyond current trends. The most important thing is to proceed in the direction of human evolution. It is unfolding very slowly at the current pace, but it will accelerate in the future in a more conclusive manner.

"We can see the progress made with these messages; they leave their vibration in those hearts that are capable of making the most of them. This way of Sahaj Marg will not be forgotten. Whatever upheavals may come, its impact will continue to touch hearts that in the future will be increasingly sensitive to their special vibration. Doesn't everything have its raison d'être? Divine purposes have a precision that is little understood by humans, but when needed, such precision and effectiveness are absolute. Everything has its purpose; it is up to each one to understand this and to seize opportunities when they arise — opportunities to move faster towards the ultimate goal under our constant blessings."
