Whispers from The Brighter World

Friday, September 19, 2014 – 10:00 a.m.

These messages given in the world sow a magic seed in people's hearts – that of 'Victorious Love'. Our efforts are not made in vain: after many years of Sahaj Marg in its multiple aspects, the results are more than convincing. Everything happens slowly but very surely; isn't that the essential thing? In this very superficial world, having the wisdom to devote oneself to this personal and spiritual journey denotes a real longing of the soul to rise.

This kingdom of divine love is without equal; managing to reach it in all its fullness is a dream that can also become a reality. Sahaj Marg is one of the means given to humans to seize this opportunity. Here, they are offered the chance to win over this sacred space where the best can be accomplished.

All these messages aim to help our brothers and sisters, to shed another light on spirituality. This process is not in vain; its effects are not easy to measure, but one day, our brothers and sisters will truly understand the meaning of this teaching and the subtlety of a practice apparently simple but endowed with powers of its own. No fanfare, no illusory promises, no delectable paradise; here is reality, the one that governs the world of humans and far beyond.

Divine laws are the same for all here below, but each person has his or her personal asset, and this is the most precious gift when it is beautified through a process like this one. May all motivate themselves even further, under our blessings.
