Whispers from The Brighter World

Tuesday, September 23, 2014 — 10:00 a.m.

A wave of love comes over you and carries you far away to the enchanted shores. It is good to rejuvenate oneself there and forget about the worries and suffering that can be inevitable here below. We shower the world with love, with positive energy that can help our brothers and sisters on a journey that, for the most part, is not easy for anyone. We would like to accelerate the process of transformation, helping humans win over another space of life — one that is easier. For this, patience is required. Proceeding in the direction of one's personal elevation is a decisive act. Understanding its necessity is a strength, a divine gift of which no aspect should be neglected with regard to regular and productive practice. The concept of sovereign love is important and cultivating it within oneself is critical to this process. This love is not lost and is carried over from life to life as a precious and divine legacy.

"May all our brothers and sisters realise the importance of their commitment — it is not trivial. It differs from many activities in which human beings are involved on a daily basis throughout their Earthly journey. The writings and speeches of the Masters help our brothers and sisters in this special process. These messages are a daily nourishment provided by the hierarchy of the Masters for the good of all our aspirants. In proportion to each person's call, this food is received, and the strength of our way increases — so do its benefits. We wish the best to all, from our united hearts."
