Whispers from The Brighter World

Tuesday, September 30, 2014 – 10:00 a.m.

Regain serenity, the one that fills you with wonder, beyond trials, sufferings and all that can make up a life. You have been longing to leave this world, and that for a very long time, but no one can, of one's own volition, shorten this journey without consequences. One must cope with it as best as possible, as our dear great son is doing, in such a difficult period of his life. Everyone has to come to terms with their destiny; a life is planned in this way and for good reasons. Each of the stages is formative for all, no one can imagine to what extent. Acceptance is a very important aspect – this reminder must be given once again – it determines the rest of the journey. Every day, every moment, offers an opportunity for humans to embellish their journey, through actions and gestures imbued with caring and love to be lavished all around oneself. All this is included in the personal journey; in one's deepest self what will remain of the best is being developed, to prepare for the future. That which is now brings about the future, through a long series of incarnations in which beings develop themselves in accordance with the higher will, in that very special pattern, incomprehensible to humans. Human beings are very limited in their perception of phenomena. Why this, why that – acceptance helps one to progress, to grow spiritually, to also understand all the intricacies of karma.

All our brothers and sisters are on their way, some more committed than others, but a fervent heart quickly finds its place in these sacred mazes, where the best happens with the help of the Masters who support them. The best to all.
