Whispers from The Brighter World

Tuesday, October 21, 2014 – 10:00 a.m.

Time is passing, it does its work, and everything is moving forward according to plan, especially for our Mission. Our very great son Parthasarathi stays the course with so much courage. He is an example for many of our abhyasis. The Mission is making progress and gaining strength. Errors are being made, but a perfect world does not exist. Life is like that. May all realise the special nature of what this process brings them and fully benefit from it.
