Whispers from The Brighter World

Thursday, December 25, 2014 — 10:00 a.m.

This long journey of messages will go down as an important reference in our Mission, much more so than it would appear today; time always lends to events their rightful place. Going forward, the Sahaj Marg Mission will remain as planned. It will require adjusting in many aspects and an appropriate organisational structure will have to be set up in view of the changes that will take place in the world. We are not there yet; let us proceed day by day while supporting our beloved Kamlesh, the current successor now in place to continue transmitting that which is required.

"As the saying goes, unity makes strength. Behaviours will need to be adapted to circumstances. We expect the best from all our abhyasis; this Mission must grow, move forward and become stronger both in terms of its material bases and spiritually in the heart of each of our dear abhyasis.

"There is still a long way to go, but unity and strength will allow this Mission to keep growing and mastering a sacred space that has never before been reached. We will always support the Master chosen by the hierarchy. This choice was not made in vain; his potential is such that he will be able to adjust to events and always make the right decisions, those that are called for, even if they might be challenged.

"We are by his side in our own way. Nothing is ever easy on Earth; going against our choices is a serious matter. We expect the best from all our aspirants. Wherever they may be, a real connection unites them and strengthens the unique egregore that characterises this

exceptional way of the heart – a way that will stand out more and more in all its subtlety and power of action. Everything in its own time. Solid foundations have been laid on which the future will build a sacred mountain for the good of humanity. This is how it goes!"
